

RISHABH DEV NAYAK

Game Programmer (C# & C++) | Unity Engine | Unreal Engine | Roblox
Raipur, Chhattisgarh, India | +91-7000941661 | rdnayak26@gmail.com | LinkedIn

Professional Summary

Game Programmer with experience in Unity, Roblox, and Unreal Engine, focused on gameplay systems, multiplayer features, UI systems, VR interaction design, animation systems, and performance optimization. Built and shipped features across Meta Quest, Roblox, PC, and mobile projects, with hands-on work in gameplay architecture, player interactions, debugging, profiling, and production-ready implementation.

Experience

Carina Softlabs Inc.

Raipur / Indore, India

Junior Unity Developer

Jul 2025 – Jul 2026

- Build VR, AR, and MR applications in Unity with a focus on interaction systems, scene flow, and stable performance on Meta Quest hardware.
- Implement multiplayer systems, gameplay interaction systems, player synchronization, and session flow within Agile development workflows.
- Collaborate with designers and artists to refine features, resolve bugs, and maintain production builds.

Unity Developer Intern

Mar 2025 – Jun 2025

- Assisted in implementing gameplay mechanics, UI screens, and interaction logic for Unity-based projects.

Freelance

Raipur, India

Game Developer

Jul 2024 – Present

- Build small-scale games in Unity and Unreal Engine for PC and mobile platforms.
- Prototype gameplay mechanics, UI flows, audio triggers, animation systems, and VFX integration.

MBS Games

Raipur, India

Software Engineer Intern

Aug 2023 – Jul 2024

- Contributed to game features in Unity, including player controls, Rigidbody physics, collision systems, basic AI, and UI components.

Projects

Spacious Places (Unity, VR) – Carina Softlabs Inc. | View Project

Implemented key production features for a Meta Quest VR application, including a custom Guardian system, pause menu, IAP access control, and data reset flow.

Gods Gang (Unity, Mobile) | View Project

Developed complete playable character systems including movement, animations, combat abilities, collectible items, and Scriptable Object-based level data. Built modular special ability systems and an ambient audio system with distance-based attenuation and interior-exterior audio blending.

Line to the Killer (Roblox) – Carina Softlabs Inc. | View Project

Designed and implemented core gameplay systems and player interaction mechanics.

Shogun Heist (Roblox) – Carina Softlabs Inc. | View Project

Education

Shri Shankaracharya Institute of Professional Management & Technology, Mujgahan

Raipur, India

Bachelor of Technology (B.Tech), Computer Science

Oct 2020 – May 2024

Shubhkamna Institute

Raipur, India

Certificate Course, Unreal Engine

Sep 2022 – Jul 2023

Gyan Ganga Educational Academy

Raipur, India

12th, PCM (75%)

Oct 2019 – Oct 2020

10th (84%)

Oct 2017 – Oct 2018

Skills

Game Engines: Unity, Roblox Studio, Unreal Engine (Blueprints)

Programming: C#, C++, Lua, Object-Oriented Programming, Gameplay Programming

Gameplay & Systems: Multiplayer Systems, Gameplay Systems, UI Systems, Animation State Machines, Player Interaction, Core Gameplay Mechanics, Collision Systems, Rigidbody Physics

Optimization: Frame Rate Optimization, Memory Optimization, Profiling, Build Optimization, Debugging

Tools & Workflow: Git, Version Control, Agile/Scrum
